

TRANSPORTATION DEPARTMENT[761]

Adopted and Filed

Pursuant to the authority of Iowa Code sections 307.12 and 307A.2, the Iowa Department of Transportation, on November 16, 2016, adopted amendments to Chapter 821, “Highway-Railroad Grade Crossing Surface Repair Fund,” Iowa Administrative Code.

Notice of Intended Action for these amendments was published in the October 12, 2016, Iowa Administrative Bulletin as **ARC 2751C**.

These amendments change the way in which funds are distributed by the Department to assist railroads and highway authorities in repairing highway-railroad grade crossing surfaces. The repair of highway-railroad grade crossing surfaces restores a safe and smooth crossing for the motorist. Applications were only funded in the order in which they were received. Funding applications in the order received left no discretion or process to advance projects based on need, safety or other considerations. These amendments allow the Department to set aside an amount not to exceed 50 percent of the repair fund in any fiscal year for discretionary project selection and set out the criteria to take into consideration when utilizing that funding. Cost sharing between the Department, railroad, and highway authority remains unchanged.

Other amendments update the contact information of the Department and the chapter implementation sentence.

These rules do not provide for waivers. Any person who believes that the person’s circumstances meet the statutory criteria for a waiver may petition the Department for a waiver under 761—Chapter 11.

These amendments are identical to those published under Notice of Intended Action.

After analysis and review of this rule making, no impact on jobs has been found.

These amendments are intended to implement Iowa Code section 327G.29.

These amendments will become effective January 11, 2017.
